This new apartment with a balcony is a part of a currently emerging boutique project, which will be located in a quiet part of a popular mountain resort on the border of the Jizera and the Krkonoše mountains. The village, which has managed to retain its original character, has a beautiful surrounding countryside, excellent restaurants, and a wide range of year-round sports activities.

The functional layout consists of a living room with access to a balcony, a preparation for a kitchen, 2 bedrooms, a bathroom, a separate toilet, a hallway, and a foyer.

The building, with charred timber cladding, will be the first energy-efficient wooden building in Harrachov. The unit's higher standard facilities include an entrance door with a security lock, VEKRA interior doors with concealed hinges and a height of 210 cm (choice of 4 decors), premium vinyl floors (choice of 5 decors), large-format Ambienti tiles and floor tiles, economical SAT toilets, additional Laufen sanitary ware and Brevis and Grohe faucets, and a preparation for a security system. Sustainability and low operating costs will be ensured by photovoltaic panels, underfloor heating, cooling with a heat pump, and plastic windows with insulated triple glazing. It is necessary to purchase a cellar storage unit and outdoor or garage parking space with a preparation for a wallbox connected to its own PV system. A common garden with a barbecue and seating area can be used for neighborhood get-togethers.

A cafe offering hot breakfasts, and a popular restaurant in a traditional mountain cottage are located near the new residence. A glass museum and a brewery are also nearby. It is possible to reach a cable car comfortably by ski bus, with a stop only 5 minutes away. The new Polana Jakuszycka Polish sports complex, the starting point of the cross-country trails connected to the Jizerská highway, is close-by. Harrachov is easily accessible. The drive from Prague takes about an hour and a half, and you can also use direct bus connections.

Floor area 61.7 m², balcony 1.1 m².

Construction will begin by the middle of 2024.
