

44 488 m², Žďár nad Sázavou, Velká Bíteš

STANDARD TECHNICAL SPECIFICATION

<p>SUPPORTING STRUCTURE</p> <ul style="list-style-type: none"> • Pad on pile foundations, insulated plinth, slabs on 150mm above floor • Prefabricated concrete columns in 12 x 24m grid and per span • Prefabricated concrete or steel roof beams, clear height of 10m 	<p>FLOOR</p> <ul style="list-style-type: none"> • Fibre reinforced concrete floor PE membrane, 100 joints, 30mm thick, surface treated with hardener • Load capacity of 55 kN/m², 60 kN point load • Flatness according to DIN 1822, table 3, line 3 	<p>ROOF</p> <ul style="list-style-type: none"> • Corrugated steel sheets, mineral wool insulation, PVC membrane • Free load capacity of 15 kg/m² for client's installations • Min. 2% of slope in warehouse area • Optimum drainage system 	<p>FAÇADE</p> <ul style="list-style-type: none"> • Horizontal sandwich panels with mineral wool insulation • Prefabricated concrete facade around docks to eaves, 4.5m height • Double-glazed windows in offices with insulated PVC profiles 	<p>DOCKS</p> <ul style="list-style-type: none"> • 1x electrically operated 3 x 3.2 m dock for each 3 000 sqm of hall • Each dock equipped with hydraulic leveler, 60 kN capacity PVC roller, wheel guides • 1x electrically operated 3 x 4.2 m drive-in gate for each 3 000 sqm of hall
<p>HALL INSTALLATIONS</p> <ul style="list-style-type: none"> • Gas safety beacons or infrared gas radiators, heating according to norms for warehousing • 220V gridlines under roof, PE (ground certified) tank and pumps • 200 kVA 1200 kVA transformer including influence of electric installation • 1x 63 kVA dry transformer station per each 3-2 000 sqm of hall 	<p>PRODUCTION UPGRADE (OPTIONAL)</p> <ul style="list-style-type: none"> • Increased facade and roof insulation • Heating and ventilation in accordance with code for manufacturing warehousing • 300 kVA 1200 kVA transformer including influence of electric installation • Increased percentage of dry storage area 	<p>OFFICES</p> <ul style="list-style-type: none"> • 2 meet rooms designed in hall, 1x1, offices, social, locker rooms, day rooms, exit furniture and equipment • Aluminium entrance door with canopy to entrance lobby • Thin coating of PVC floor surfaces, suspended mineral ceiling panels • Solid floors with raised, fabric, cell tile, and basic acoustics • PVC color trays below windows, 2x 220V socket per work place • Super room with 2 light units and entrance PVC floor • Trip coating 	<p>OUTSIDE AREAS</p> <ul style="list-style-type: none"> • Hard areas from concrete paving, sloped for drainage • 200mm thick base, entrance barriers and metal gate • Green areas with grass, bushes, and trees 	

Logistic park

[Ask for price](#)44 488 m², Žďár nad Sázavou, Velká Bíteš

Total area	44 488 m ²
Available area for rent	44 488 m ²
Ceiling height	12.5 m
Floor loading capacity	5 t/m ²
Column grid structure	—
Structure	Reinforced concrete structure
PENB	G
Reference number	107433

Logistic park offers warehouse, industrial and office space for lease. The planned construction of two modern industrial buildings has a total area of 44 488 sqm. The premises are suitable for warehousing and light manufacturing. Photos are illustrative.

Location:

The park is located in an industrial zone in the northwest of the village of Košíkov, west of Brno. Highway D1 (Prague-Brno-Ostrava) exit 162 is 1 km away. Public transport (bus) is within walking distance.

Features and Services:

- Flexible units (storage / office / light production / showroom)
- 139 x car parking places
- Retention pond

Storage/Industrial space:

- 6 x Drive-in
- 75 x Loading docks
- Floor loading capacity 5 t/sqm
- Clear height 10 - 12,5 m
- Column grid structure 12x24 m
- 200 Lux LED lighting
- ESFR sprinkler system

Office:

- Office space with facilities according to the clients requirements

Lessee pays no commission.
