The interior of the **four-bedroom penthouse** will consist of an entrance hall with space for a built-in closet, a kitchen, a living room with a dining area, a guest toilet with a sink, a bathroom with a bathtub and toilet, another bathroom with a walk-in shower and toilet, two bedrooms with access to a smaller **terrace**, and two rooms with access to the main **terrace**. The main terrace can also be accessed from the living room.

The "white-wall" apartment will include insulated triple-glazed **large-format French aluminum windows** with insulating triple glazing, **underfloor heating**, and a fan coil ceiling cooling system throughout the apartment. Standard equipment will include a preparation for motorized exterior blinds, laminate floors, interior doors, tiles and sanitary ware in the bathroom, KLUDI faucets, a shower with a built-in floor drain/bathtub, and a toilet. **Above-standard equipment** will include higher quality materials, wooden floors, rebateless interior doors, larger tiles in the bathroom, and Hansgrohe faucets.
