Price per sq. m.	Ask for price
Total area	3 309 m²
Land type	Commercial
Reference number	103717

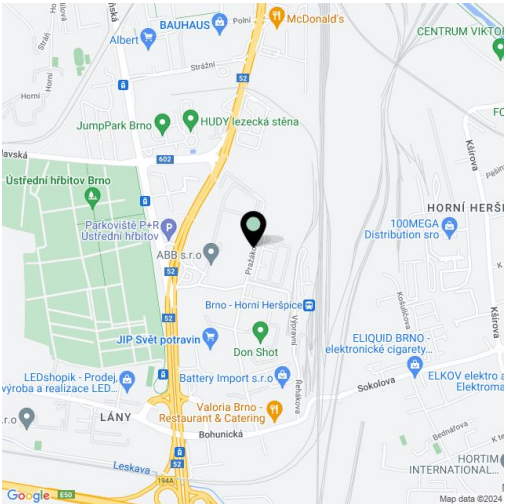

A plot of land suitable for development in the Štýřice district of Brno. The offer includes a showroom project with a valid building permit and a study of a multifunctional building.

There is now a functioning car repair shop on the property with revenue and adjacent asphalt areas serving as a parking lot. All utilities are connected to the plot, access is via an asphalt road.

The area is located in the commercial zone between Heršpická Street and the railway line, near the AZ Tower building and the Spielberg office center area, all infrastructure including public transport bus stops are nearby.

An authoritatively issued building permit for the construction of a showroom allows the investor to start construction immediately.

Total area 3,309 m².
