The property is currently used as a company's headquarters. There is now a reception, kitchen, and toilet on the ground floor, and 3 offices and a toilet on the first floor. The attic is an open, currently unused space where additional rooms can be created.

The brick building with a **basement** has concrete ceilings, a metal roof, and plastic windows. It was built in 1930 and **renovated** in 1998-1999; the condition of the building is good, and it can be used immediately. Facilities include **wooden parquet**, concrete, and carpeted floors. The ceiling height on the ground and first floors is 2.9 m. Heating is provided by a Vaillant gas condensing boiler. There is a **separate garage** and **4 outdoor parking spaces** on the plot (possibly 1 additional space in front of the garage).

The location on the corner of side streets in Mariánské Hory is suitable for family living as well as company headquarters. Within walking distance is a grocery store, cafe, restaurant, pharmacy, **wellness center**, **Sokol sports ground**, a kindergarten and elementary school, and the University of Ostrava. A tram stop is a 4-minute walk away, and the **Futurum shopping center** can be reached in 10 minutes. The city center is conveniently located; it is close to the vast **Milady Horákové Garden**, which will be revitalized in the coming years.
